

Welcome. I want to start with a prayer.

Jesus, I pray that every word spoken be anointed by the Holy Spirit and that this teaching on your Word will not return void, but it will accomplish the purposes of God. In Jesus name, Amen.

I will continue my teaching on the second coming of Jesus, but this week I just have to cheer on the Canadian Truckers and their protest against vaccine mandates and the tyranny of the government officials in Canada. I also applaud the citizens of Canada that stepped out and took fuel to the truckers by the hundreds. As long as these truckers and the citizens of Canada protest peacefully, I am praying for your success and I hope my listeners around the world will pray and support the Canadians cause.

When I saw hundreds of regular citizens of Canada walking gallons of fuel to the truckers I began to think "What If". What if Americans, and Australians, and the British, and the French, and other countries began peaceful protests by the thousands in every city all over the world. Could we make a difference? Could we stop the tyrants that have mandated vaccines to adults who have made a constitutional protected decision to not put untested and unverified substances in our bodies? Could the people take back their power? We used to depend on free and honest elections to determine how we wanted to be ruled. But after the 2020 General elections can we trust that our elections in America are free and honest any longer.

The Canadian truckers remind me of Gandi and Martin Luther King Jr. Remember the civil rights marches of Martin Luther King Jr. The blacks especially in certain areas of this nation were hampered from voting. They were denied access, they were threatened, they were put in jail, and even some were murdered because they just wanted to express their constitutionally protected right to vote. So, what were the blacks' alternatives, they took their cause to the street and they showed up in mass and they peacefully protested until politicians and leaders were forced to listen and change things.

People of the world it is time to get the attention of your politicians and leaders again. There was and still is an evil agenda to isolate and divide and suppress the truth. The elites and leaders of the Western countries are being trained by the World Economic Forum and Davos and the entities of the United Nations and liberal socialist universities. Many of our current leaders in America are graduates of these training programs and they have been trained that they know what is best for all us peasants and that we need a one world socialist government to enslave all the worker bees and make them tow the line.

They don't report the news in mainstream media. No, they preach their one world anti-christ propaganda and call it the news. It is Fake News. Worse, it is intended for evil and to divide us just like Nazi propaganda. The Nazis took control by putting one group against another. They isolated the communist, the socialist, the Jews, and made them one by one enemies of the state. Sound familiar. Sound like the current hateful and deceptive lies of some of our leaders today. Who would have thought a couple of years ago, that the government would try to separate us on issues like whether we wanted to take a flu shot?

On the other hand, they cancel, persecute, suppress, or even crucify the actual truth tellers. Even worse they are using our law enforcement agencies and lawmaking bodies to prosecute and identify truth tellers as terrorist. They are intimidating and threatening soccer moms at the PTA meetings, reputable and qualified scientist, independent radio and social media broadcasters.

The evil elites have locked us down, gagged us with masks, taken our jobs, threaten to take away our license to be a doctor, shut down the energy pipelines, raised gas prices, they have bungled our supply chains, mismanaged our national debt, caused unsustainable inflation, ruined our economy, embarrassed us because of our appalling surrender of Afghanistan, destroyed our reputation as a loyal ally, denied us access to our loved ones in covid wards so we will never really know how or why our loved ones died, they refuse to let us travel freely, they opened our southern border to mostly single males that have not been checked for criminal records or terrorist associations, they have defunded the police and let crime run rampant in our communities, they have allowed transgender men to go into our little girls locker rooms in the public schools and the list goes on of the insane overreach of the government into our personal lives.

I have to ask. When is enough, enough? Does anyone have any common sense in government? How much longer are the citizens of what are supposed to be free countries going to put up with the mismanagement of our nations? How long will you tolerate corrupt government leaders that have been bought off by China and trained by George Soros and Klaus Swab to destabilize our nations and turn them into third world countries? How much longer will you allow your children to be taught lies in school about the history of the United States and what your grandfathers fought to build and preserve and protect? Why are you letting these subversive school board liars turn our grandfathers and veterans into monsters when they should be celebrated like heroes. How long are Christian Americans going to be weak on abortion and covid lockdowns? How long are Christian pastors going to care more about their tax-exempt status and their mega church buildings than preaching about sin,

abortion, fornication, homosexuality, and corruption in government. In other words, I challenge our American Christian pastors to tell the truth to their congregations and if necessary, shout it from the house tops and from the street corners and skid row and flush out sin and iniquity wherever they find it.

Jesus taught the truth in the synagogues and established religion hated Him for it. So, Jesus took His message of truth and good news to the streets. He went to where the sinners lived. He sat for hours and preached in the wilderness. Jesus, this one solitary man, armed with the only the truth and the power of the Holy Spirit changed the whole world. Remember this was before Tv or social media.

Now we have one brave group of Canadian truckers who are standing up for their rights. As long as we keep it peaceful let's pray for them and support them and even follow their example in our own communities and nations around the world.

Martin Luther King Jr had a dream. Well today, I have a dream. I dream of every restaurant, business, school, church, and air plane being able to open up if that it what they independently choose to do. I dream of anyone who wants a vaccine to get one, but if you don't want a vaccine then you can still work or travel and live your life free to choose. I dream of anyone who wants to wear a mask to wear one, but if you don't want to wear a mask then you have the freedom to choose without being punished by your employer, or your school, or the airlines, or bank, or being denied access to a government office, medical facilities, or businesses. I have a dream of out of work construction workers, oil workers, engineers, unvaxed students denied entrance to college, punished doctors and nurses, unemployed teachers, or any American than thinks we should have a strong and defendable border to come to Texas and help us build a border wall. I have a dream of American truckers, cowboys and ranchers with horse trailers, retired seniors with RV's, motorcycle clubs, or veterans in wheel chairs to form a peaceful but powerful convoy from coast to coast and border to border of the United States and stand up for our freedoms that are being taken away daily and refuse to be silent and sit on the sidelines anymore. I have a dream for American pastors and Christians to stand up for their freedom of religion and to open up and pack out every church building in America this Sunday and pray and fast until we see real change in our nation. I have a dream that America will be the beginning of a worldwide revival that will shake the gates of hell and put every demon on the run. I have a dream that all Western nations will open up, stand up, and reassert their constitutional freedoms and take back the power of the people.

So, you ask, why is a Bible teacher talking about this and what does it have to do with any lesson in the Bible. I want to refer you to the book of Nehemiah in

the Old Testament of the Bible. I want to encourage you to read the whole book of Nehemiah, because of time I will paraphrase much of the story.

Nehemiah was an exiled Jew and the cup bearer or servant to the Persian King Artaxerxes. He received news that the remnant of Jews who had survived the exile is in great trouble and the wall of Jerusalem is broken down, and its gates are destroyed by fire. He immediately mourned over that news and fasted and prayed and ask God to forgive his people and to remember the covenant promise God had made to the Jewish people. He asks God to intervene. And God did. The king he served noticed how sad he was and asked if he was sick. Nehemiah told the king about the conditions in Jerusalem and requested that the king let him return to Jerusalem and repair the walls and gates of the city. He also requested letters from the king giving him safe passage through each province and even granting him resources and building materials to repair the city. Well of course anytime we start a project for God, satan will send enemies to discourage, delay, deny us completion of that project. So, Nehemiah was very wise and he did not tell anyone about his mission and he inspected the walls at night in secret and after he had made his assessment and come up with a plan then he told the priests and the nobles and the those who would do the work his plans. Nehemiah was meet by opposition of some local leaders that did not want the Jerusalem rebuilt and repaired. These leaders scoffed and made threats and even conspired to attack the wall builders and kill them. They also accused Nehemiah of being a trouble maker and rebelling against the Persian king. They even conspired to arrange a meeting with Nehemiah that was a trap to kill him, but Nehemiah did not go and he did not back down. They even sent a false prophet they hired to scare him. But he united the wall builders and made them work with a hammer in one hand and a sword in the other. The workers took turns sleeping, and guarding, and working. They even slept in their clothes except when the clothes were being washed. In Nehemiah 4:19-20 he instructed the wall builders to rally to the sound of a trumpet to defend off attacks. ¹⁹ And I said to the nobles and to the officials and to the rest of the people, "The work is great and widely spread, and we are separated on the wall, far from one another. ²⁰ In the place where you hear the sound of the trumpet, rally to us there. Our God will fight for us."

My question to you, is does the Christian Western world have a leader that will mourn and pray and fast and repent and ask God to intervene. But more than that, a leader that will take action and confront the evil government policies. We need to be united and trained how to be wall builders and also how to stand on that wall and defend it.

Nehemiah was actually not a recognized leader. He was actually a servant to a foreign king, but seeing his homeland being trampled down moved him to his knees and to ask God for help and then put God's plan to rebuild the wall into

action and got it done. Maybe you are just a truck driver, or a nurse, or a teacher, or a student, or a senior citizen, you feel like you are just one concerned person. Well, you are in good company. That is what Nehemiah was. Just one concerned Godly man who prayed for change, asked for change, and brought change. Are there any modern-day Nehemiah out there listening?

Sound the trumpet

Rally us

Our God will fight for us.
