

Welcome. Let's pray.

Jesus, I pray that every word spoken will be anointed by the Holy Spirit and that this teaching will accomplish the purposes of God. In Jesus name, Amen.

I will continue my teaching on the second coming of Jesus, but this week I just have to cheer on the Canadian Truckers and their protest against vaccine mandates and the tyranny of the government officials in Canada. I also applaud the citizens of Canada that stepped out and took fuel to the truckers by the hundreds. As long as these truckers and the citizens of Canada protest peacefully, I am praying for your success and I hope my listeners around the world will pray and support the Canadians cause.

When I saw hundreds of regular citizens of Canada walking gallons of fuel to the truckers I began to think "What If". What if Americans, and Australians, and other countries began peaceful protests by the thousands all over the world. Could we make a difference? Could we stop the tyrants that have used their so-called emergency powers to take away our rights? Could the people take back their power? We used to depend on free and honest elections to determine how we wanted to be ruled. But after the 2020 General elections can we trust that our elections are free and honest.

The Canadian truckers remind me of Gandi and Martin Luther King Jr. Remember the civil rights marches of Martin Luther King Jr. The blacks in certain areas of this nation were hampered from voting. They were denied access, they were threatened and jailed, and even some were murdered because they just wanted to express their right to vote. So, what were the blacks' alternatives, they took their cause to the street and they showed up in mass and they peacefully protested until politicians were forced to listen and change things.

People of the world it is time to get the attention of your leaders again. There is an evil agenda to divide us and suppress the truth. The leaders of the Western countries are being trained by the international billionaires with a one world anti-christ and socialist agenda. Many of our current leaders in America are graduates of these training programs and they have been trained that they know what is best for all us peasants and that they should dictate their will upon us and to crush anyone who disagrees with them. That is not a democracy. That is a dictatorship and the leader is a tyrant who uses emergency powers to take our rights and suppress our voices.

Also, the mainstream media don't report the news. No, they preach their one world anti-christ propaganda and call it the news. It is Fake News. Worse, it is intended for evil and to divide us just like Nazi propaganda. The Nazis took control by putting one group against another. They isolated anyone who voiced disagreement and made them enemies of the state. Sound familiar. Sounds like the current behavior of some of our leaders today. Who would have thought a couple of years ago, that refusing to take a flu shot would make you an enemy of the state?

On the other hand, they cancel, persecute, suppress, or even crucify the actual truth tellers. Even worse they are using our law enforcement agencies and lawmaking bodies to prosecute and identify truth tellers as terrorist. They are intimidating and threatening soccer moms, reputable scientist, and even pastors.

The politicians have locked us down, gagged us with masks, taken our jobs, threaten our doctors license, shut down the energy pipelines, raised gas prices, bungled our supply chains, mismanaged our national debt, caused unsustainable inflation, ruined our economy, embarrassed us in Afghanistan, destroyed our reputation as a loyal ally, denied us access to our loved ones in covid wards so we will never really know how or why our loved ones died, they refuse to let citizens travel freely, but they opened our southern border to people who have not been checked for criminal records or terrorist associations, they have defunded the police and let crime run rampant in our communities, they have allowed transgender men to go into our little girls locker rooms in the public schools and the list goes on of the insane overreach of the government into our personal lives.

I have to ask. When is enough, enough? These emergency powers that the leaders in many nations have enacted must come to an end NOW! We must stand up now and say no to government overreach. How much longer are the citizens in free countries going to put up with the mismanagement of our nations? How long will you tolerate corrupt government leaders that have been bought off by China and trained by international billionaires to destabilize our nations and turn them into third world countries? How much longer will you allow your children to be taught subversive lies that turn our grandfathers and veterans into monsters when they should be celebrated like heroes. How long are Christian Americans going to be weak on abortion and covid lockdowns? How long are Christian pastors going to care more about their tax-exempt status and their mega church buildings than preaching about sin, abortion, fornication, homosexuality, and corruption in government. In other words, I challenge our American Christian pastors to tell the truth to their congregations, call for an end to the emergency powers, and if necessary, shout it from the house tops and from the street corners. Flush out sin wherever they find it.

Jesus taught the truth in the synagogues and established religion hated Him for it. So, Jesus took His message of truth to the streets. He went to where the sinners lived. He preached in the wilderness. Jesus, this one solitary man, armed with the only the truth and the power of the Holy Spirit changed the whole world.

Now we have one brave group of Canadian truckers who are standing up for their rights. As long as we keep it peaceful let's pray for them and support them. They have set a peaceful example that maybe other nations could follow.

Martin Luther King Jr had a dream. Well today, I have a dream. I dream of every restaurant, business, school, church, and air plane being able to open up if they choose to. I dream of anyone who doesn't want a vaccine then you can still work or travel. I dream of anyone who doesn't want to wear a mask then you have the freedom to choose without being punished by your employer, or your school, or the airlines, or your bank. I have a dream of out of work construction workers, oil workers, engineers, unvaccinated college students denied an education, punished nurses, unemployed teachers, a veteran, or any American that thinks we should have a strong border to help build a border wall. I have a dream of American truckers, cowboys with horse trailers, retired seniors with RV's, motorcycle clubs, or veterans in wheel chairs to come together in peaceful opposition like the civil rights groups and stand up for our freedoms that are being taken away by so-called emergency powers and refuse to be silent anymore. I have a dream for American pastors and Christians to stand up for their freedom of religion and to open up and pack out every church in America and lead us in prayer and fasting until we see real change in our nation. I have a dream that America will be the beginning of a worldwide revival that will shake the gates of hell. I have a dream that the people of free countries will stand up and remind their leaders to do the will of the people they represent. I have a dream that the emergency powers and the tyrants who use them as weapons against those who disagree with their mandates will end.

So, you ask, why is a Bible teacher talking about this and what does it have to do with the Bible. I want to refer you to the book of Nehemiah. I want to encourage you to read the whole book of Nehemiah, because of time I will paraphrase much of the story.

Nehemiah was an exiled Jew and the cup bearer or servant to the Persian King. He received news that the remnant of Jews who had survived the exile is in great trouble and the wall of Jerusalem is broken down, and its gates are destroyed by fire. He immediately mourned over that news and fasted and prayed and ask God to forgive his people and to remember the covenant promise God had made to the Jewish people. He also asks God to intervene.

And God did. The king he served noticed how sad he was and asked if he was sick. Nehemiah told the king about the conditions in Jerusalem and requested that the king let him return to Jerusalem and repair the walls and gates of the city. He also requested letters from the king giving him safe passage through each province and even granting him resources and building materials to repair the city. Well of course anytime we start a project for God, Satan will send enemies to discourage, delay, deny us completion of that project. So, Nehemiah was very wise and he did not tell anyone about his mission and he inspected the walls at night in secret and after he had made his assessment. Then he told the priests and the nobles about his plan to rebuild the walls and city. Nehemiah was met by opposition from some local leaders that did not want Jerusalem rebuilt. These leaders scoffed and made threats and even conspired to attack the wall builders and kill them. They also accused Nehemiah of being a trouble maker and rebelling against the Persian king. When those tactics didn't work the evil leaders hired a false prophet to try to scare him. Finally, they conspired to arrange a meeting with Nehemiah that was a trap to kill him, but Nehemiah did not go and he did not back down. But he united the wall builders and made them work with a hammer in one hand and a sword in the other. The workers took turns sleeping, and guarding, and working. They even slept in their clothes so they could be ready to resist an attack day or night. In Nehemiah 4:19-20 he instructed the wall builders to rally to the sound of a trumpet to defend off attacks. <sup>19</sup> The work is great and widely spread, and we are separated on the wall, far from one another. <sup>20</sup> In the place where you hear the sound of the trumpet, rally to us there. Our God will fight for us."

My question to you, is does the Christian world have a leader that will mourn and pray and ask God to intervene. But more than that, a leader that will take action and confront evil. We need to be united and trained how to be wall builders and also how to stand on that wall and defend it.

Nehemiah was actually a servant to a foreign king, but seeing his homeland in ruins moved him to his knees and to ask God for help and then put God's plan to rebuild the wall into action and got it done. Maybe you are just a truck driver, or a nurse, or a student, or a senior citizen, and you feel like you are just one concerned person. Well, you are in good company. That is what Nehemiah was. Just one concerned Godly man who prayed for change and brought change. Are there any modern-day Nehemiah out there listening?

Sound the trumpet

Rally us

Our God will fight for us.
