

Welcome everyone and please pray.

Jesus, let every word spoken be anointed by the Holy Spirit and help the American people to realize that now is the time to seek God and righteousness. I pray for God's divine and perfect will in all the 2020 elections in America. In Jesus name, Amen.

I am going to continue to teach on Matthew 24 verse 4 this week.

And Jesus answered and said unto them, **Take heed that no man deceive you.**

Last week I asked some questions and I hope you took the time to really come up with an honest response. This week I want to see if you really know the truth about some of the political platforms and the people that are promoting a far-left agenda and their motives for wanting America to pursue a radical socialist agenda in this election.

Where do you get your political ideas and facts? Would you even realize it, if you were being deceived and manipulated? Jesus said, let no man deceive you and the Bible says that if we keep our mouths shut and take no action against evil then we will be led like sheep to the slaughter. Here are some verses in Isaiah and Jerimiah:

[Isa 53:7](#) He was oppressed and afflicted, but he did open not his mouth: he is brought as a lamb to the **slaughter** because he did not open his mouth.

[Isa 65:12](#) You shall all bow down to the **slaughter**: because when I called, you did not answer; when I spoke, you did not hear; but did evil before mine eyes

[Jer 50:27](#) let them go down to the **slaughter**: woe unto them! for their day is come, the time of their visitation.

[Jer 51:40](#) I will bring them down like lambs to the **slaughter**,

What do you really know about the issues and the people on the ballot in this election? Here are some ideas to consider and please don't take my word for it. Do your own research. You can read the draft of the democratic party platform as of July 2020 online. I did.

The democratic candidate that received the nomination said he stood for a moderate political platform during the primaries, but has now joined with a man from the far-left wing, a self-proclaimed democratic socialist once he received the nomination. Does that sound like a man who has deceived and betrayed the more moderate people who won him the nomination in the first place. Has he already broken promises that he made and what promises will he break, if

elected? Is he a man who can be trusted? This is not complicated. The answer is simple. What is your answer?

Mr. Biden has merged with a self-proclaimed democratic socialist that has written books with one of the titles Bernie Sanders guide to political revolution. When Sanders began his race for the presidency, it was considered to be a "fringe" movement. He was considered an Independent senator from a small state. Sanders was taking on the entire Democratic Party establishment. Sanders received millions of votes in the primaries and won several states. Most importantly, he showed that some people in the democratic party were prepared to pursue an extreme socialist agenda. So now the democratic candidate for president has aligned himself with the radical left and appointed a joint task force of Biden and Sanders supporters to draft shared policies and create a new radical democratic platform. Many of the policies that Biden clashed with Sanders on the campaign trail are now far-left policies that Biden now endorses. Why did Biden betray his supporters? At what costs would Biden move from his more moderate positions. Did Biden do it to get Sanders to endorse him for president and to get Sanders radical supporters' votes? To get the power and the control and the votes of the radical left. Did Biden sell his soul for votes? Those are the questions you need to be asking yourself.

So now let's look at what Biden stands for. What does the new radical draft of the democratic platform state as the party's goals?

Democrats want to act immediately to bail out cities and states that have been controlled by democratic governors and mayors for decades with severe budget deficits because they can't pay for all the FREE services that the democrats handed out to buy votes in those states and cities. The local taxpayers can't bear the tax burden of all the FREE programs and successful individuals and companies are moving to lower tax states, so does that mean the federal democratic party is wanting all taxpayers to bail out these failed and bankrupt democratic run states and cities. By the way, this is one major sticking point that Pelosi is holding up the next federal Covid-19 financial aid package with. She wants us to bail out the democratic run states and cities or nobody gets Covid-19 relief.

The democrats want to affirm that housing is a right and supercharge and expand affordable housing units. Does that mean they intend to dilute and weaken your home values in the suburbs?

Democrats want to make an economic contract that raises the minimum wage to \$15 an hour so that prices on everything has to go up to all Americans and will put small business owners out of business.

Democrats are committed to Net Neutrality, sounds good on the surface but does it really mean government control over the internet and good bye to healthy commercial competition.

Democrats are proud to be the party promoting the Medicare for All and that healthcare is a Human right. Does that mean, the American taxpayer will have to pay for the Right to a sex change operation?

Democrats support abortion rights and through healthcare for all, does that mean that your Christian tax dollars go to finance the murder of millions of innocent babies and finance a policy that violates your Christian beliefs? What about religious freedom?

Democrats will establish strict national standards governing the use of force and require state and local communities to adopt these national standards or lose federal grant money. Does this mean democrats will with hold federal funds from communities that support strong law and order policies? Will the democrats defund the police and take away your right to legally own a gun to defend yourself?

Democrats will take steps to eliminate a potential employer the right to ask on an employment application if the applicant has a criminal history. Does this mean you will have to work next to a convicted murderer, a rapist, or felon without any knowledge or choice? Where are the rights of legal citizens that follow the law?

Democrats will expand gay, lesbian, transgender, and all LGBTQ positions. Democrats will fight to enact the Equality Act, does that make it illegal for Christians and churches to discriminate against LGBTG people in housing, public restrooms and facilities, education, and ensure that all transgender people can receive official government identification documents that reflect their gender identity other than their physical anatomy.

Democrats want a ban on the manufacture and sale of certain guns, the removal of guns from your legal possession through "red flag" laws, regulating safe storage rules in the privacy of your own home, and repealing laws that prevent gun manufacturers from civil liability. Does that mean that they really want to take all our guns away and shut down companies that make guns or ammo because they could go bankrupt from fighting lawsuits?

Democrats believe we must embed environmental justice and climate justice at the heart of our policy and governing agenda. In other words, did they just admit that the Democrats have a governing agenda regarding climate change. Does

this mean that they intend to brainwash Americans about climate change, influence us to accept climate change as a new religion, and embrace the \$2 trillion-dollar Green New Deal?

The democrats intend to make the District of Columbia or Washington D.C. the 51st state, which currently is dominated by left leaning democrats. If most states retained their current party leanings then this would give the democrats the advantage to take over the U.S. Senate and would undermine the founding fathers' original efforts to make political power balanced between the branches of government.

In addition, democrats support efforts to give the people of Puerto Rico and other U.S. territories the right to vote, but at the same time the American taxpayer would also absorb billions in debt and other obligations in which we never voted to approve nor received benefit from.

Democrats will expand immigration through the asylum system, stop construction on the border wall, and eliminate barriers to immigration.

Democrats oppose private school vouchers even though they have promised better and safer public schools for decades.

Democrats will take away guns from teachers who bring their legally licensed gun to school for self-protection and student protection.

Democrats support forgiving all undergraduate tuition-related federal student debt from 2- and 4-year public colleges and universities if they earn less than \$125,00 annually. Salaries for teachers, programmers, nurses, and many others fall under this threshold. Sounds like us taxpayers are going to be paying off millions in student debt, if the democrats get elected. If you struggled and paid your own way through college, are you okay with this?

You can research these issues yourself by searching the words "draft of democratic party platform" on the internet. You can also go to my website and email me. Ask for the web address that I used for this broadcast.

I also invite you to go back and read the democratic platform presented by the Obama and Biden administration for the Eight years that they controlled the Whitehouse. Most of the ideas in the 2020 draft for the democratic party platform are the same except even more radical. Then look at their record, Biden and the democratic party had eight years to correct all of America's inequities and ensure world peace. So, why didn't they make things perfect then? Stop being naïve. Use common sense. It is time to Wake up America. It is time to pray and vote.

Just one more thought, Speaker Pelosi is floating around the plan that if the outcome of this election is unclear by January 6th, the decision could go to the House of Representatives. However, just having a majority of seats in the House overall is not enough. Each state gets one single vote, which means each states' single vote for president would be determined by the party that has the majority of members from that state. Pelosi is pushing money into every district to ensure a win for a democrat. The democrats are leaving nothing to chance. They hope the mail in ballots will cause chaos and leave the election unclear. Could they steal the election and nullify your vote? So, I hope that you will be safe, but go vote in person if possible.

Think, pray, and vote the Bible. Do not be deceived!

Harry Truman started FEMA's forerunner, the Federal Civil Defense Administration, in 1950. One newspaper columnist at the time had a succinct summation of the new agency's shortcomings: "The Federal Civil Defense Administration has had no authority to do anything specific, or to make anyone else do it." As a child, I was allowed to tour a local Civil Defense base. However, Civil Defense was changed and a new agency FEMA was created in April 1979, and signed by a democratic president, Jimmy Carter, FEMA brought together more than 100 programs from across the government;

Do you really care what direction this country goes in and do you really know the motives behind the issues that certain politicians want to address? I hope you do your own research. I hope you educate yourself on the issues and actually read the platforms that each political party publicly makes available for you to read and examine.

that will create jobs, raise wages, protect the environment, and provide health care for all—and ultimately transform our country and our world for the better. For him, the political revolution has just started. The campaign may be over, but the struggle goes on.
